Tips

WHAT IS THE THIRD SIDE?

The Third Side is a way of looking at conflict not just from one side or the other but from the larger perspective of the surrounding community, the “third side.”

AM I A THIRD SIDER?

Peace:
Do I stand for the transformation of destructive conflict into constructive conflict and cooperation?

Responsibility:
Do I take responsibility in the conflicts around me?

Third Side:
In these conflicts, do I take the Third Side, even when I am also a party to the conflict?

Constructive process:
Do I encourage a positive, respectful process for handling differences?

Win for the whole:
Do I support an outcome that meets the basic needs of all, including the community?
